Strategic Planning & Alignment Program

Helping executives make strategic decisions with clarity, confidence and predictable results

- Identify hidden agents creating obstacles to growth
- Discover the 27 challenges all businesses face & identify the 5 that matter the most right now
- Improve ability to diagnose problems
- Focus on the right things at the right time
- Predict how growth will impact the organization
- Foresee challenges
- Be proactive, instead of reactive
- Minimize blind-spots and lessen ambiguity
- Know when to adapt leadership style

"Like a balance sheet for company progress, our strategic planning & alignment program gives you the data you need to make the right decisions at the right time for optimal profitability and success."

-Anisa Aven, CEO TurnKey Coaching Solutions

Fire! Aim! Ready!
Too often executives must rely on speculative and incomplete data, gut instincts and biases as they drive for results.

But, is this "hope we hit the mark" strategy really the best we can do?

What if there was a way to validate your target before pulling the trigger?

There is a FORMULA for PREDICTING success.

When leaders are equipped with factual insights about their business trajectory, they can make informed and strategically smart decisions.

Our data-driven strategic alignment program, enables leaders to mitigate trial-and-error, see around the corner, and prioritize initiatives for strategic success.

Goal-Based Strategic Planning & Alignment
Facilitated by Expert Management Consultants

Developed by James Fischer, this Strategic Management Assessment & Growth Strategy Model is based on a 6-year study of entrepreneurial companies including interviews with over 650 CEOs, to understand and decipher the patterns, behaviors and characteristics of growth or failure in entrepreneurial enterprises and business units.
